one each 2oz bottle of black, blue, yellow, light blue, white, medium brown, red, green, dark brown, turquoise,  
**ANTIQUÉ FINISH** - Imparts a soft, lustrous patina. Particularly effective for emphasising tooling, carving or embossing with a subtle two tone effect. Available in several colours.

**CARNAUBA CREME** - A protective wax finish for smooth leather only. Resists finger prints and scuff marks. May be used on newly dyed leather or to restore old leather articles.

**DEGLAZER** - Use to deglaze and prepare smooth leathers for dyeing and refinishing. Will not impair leather softness or flexibility.

**DURA-EDGE** - This flexible and highly durable finish will result in a professional edge every time. No need for burnishing or buffing. Dries bright and will not rub off.

**DYE PREP** - A cleaner that cleans and prepares leather to take dye instantly.

**EDGE-KOTE** - Imparts a durable, protective, water resistant colour coating that sets fast in a deep semi gloss.

**GUM TRAGACANTH SOLUTION** - Can be used to settle rough fibres and gives a coating that seals and shines with a mellow finish.

**INSTITUTIONAL LEATHER DYE** - Especially valuable in institutions such as hospitals, schools, prisons, nursing homes. Available in dark brown, black and tan.

**INSTITUTIONAL LEATHER FINISH** - Excellent complimentary product for Institutional Leather dye. Used to protect and preserve the colour after dyeing.

**LEATHER BALM WITH ATOM WAX** - This product is specially formulated for preserving, softening, polishing and restoring articles of smooth leather. Buffs to a natural, mellow finish.

**LEATHER DYE** - A permanent colour change for all leather articles. Manufactured in 27 colours.

**LEATHER DYE SOLVENT** - A thinning material for Fiebing's Leather Dyes.

**LEATHER JACKET CLEANER** - Cleaner and conditioner which preserves, beautifies and restores fine leather jackets.

**LEATHER SHEEN** - Excellent on all types of leather articles for a sparkling, highly flexible wax finish. Available in aerosol spray or liquid form.

**MINK OIL** - Softens, preserves and waterproofs shoes, boots and all articles of leather and vinyl. Helps prevent salt stains.

**PROFESSIONAL OIL DYE** - Excellent coverage, even dyeing product for high quality results. Available in black, dark brown, saddle tan, mahogany.

**RESOLENE** - A water resistant top finish for leather. Makes an excellent sealer over our leather dye. Available in neutral and black.

**SADDLE-LAC** - This is a quick drying lacquer finish that protects your saddlery against the drying out and soiling effect of constant exposure to the elements. Neither rain, snow, biting winds, perspiration salts or gritty dirt will penetrate Saddle-Lac to attack the natural oils that keep your saddle soft and pliable.

**SNOW-PROOF** - This outstanding weatherproofers softens, waterproofs, preserves and restores leather. Snow-Proof is a colourless, odourless and easy to use conditioner that has proven effective in protecting boots, shoes and athletic equipment against the elements. Snow-Proof leaves no greasy residue and the treated leather can still be polished to a high gloss.

**SUEDE DYE** - Dyes, brightens and restores suede. Available in many colours.

**TANNERY DYE** - Professional quality water based Leather stain. Available in 8 colours.

VB13	Inert shotgun shells		£2.50	£12.50		£3.00	£15.00

## CUSTOM MADE EMBOSSING PLATES

We can transform your design into a 6 mm thick etched magnesium stamp which you can then emboss into damp veg tan leather. The stamps can be used with a small press, a vice or even a G clamp. Small stamps can be glued to wooden blocks and used with a mallet or small hammer.

### Stamp design:

1) Create your design using only clear black on white. Shading isn't picked up very well by the etching process and grey isn't picked up at all. Black is up and white is down - so anything in black on the design is raised on the stamp and will emboss into the leather.

The platemaking process is photographic so is totally dependent on the original quality of your artwork. It can't improve a picture so any marks or blots will come out on the plate. Time spent on producing crisp artwork is time well spent.

We'll let you know if we spot a glaring error on a design but the responsibility for producing the artwork is yours.

We don't advise using images with large black areas - these will need more pressure to push it into the leather and that will probably give a shallow emboss. A big black block with small white lettering won't emboss well.

2) Only add lines or borders around your design if you want it to appear on the plate and be embossed into the leather.

3) No need to reverse the image - just make it the way you want it to appear when you emboss with it.

4) You can fit multiple images on one plate - but remember you'll need to cut them out to use them individually so leave yourself at least 5 mm gap between images to make your life easier with the saw. Magnesium is hard enough for stamping leather but can be sawn with a hacksaw or jigsaw.

5) Email your design in PDF format to [emboss@leprevo.co.uk](mailto:emboss@leprevo.co.uk)

The images on the PDF should be sent to us at the exact size required - if you are sending multiple images to be made into a single plate compile them into a single PDF file.

After producing your PDF file it's worth printing it on paper as a quality check. If there are any spare pixels giving a grubby image or a fuzzy outline these should be removed or they'll end up on the plate.

**Production time** - Plates are usually ready to send out within a week of being paid for.

**Cost** - Plates are charged at £3.15 per square inch (ex VAT).

Minimum plate size for an order is 20 square inches in a standard 4 by 5 inch rectangle (10 cm x 12.5 cm) which costs £63 (ex VAT). Maximum plate size is 27.5 inches by 19.5 inches (70 cm x 50 cm). Plate sizes are rounded to the nearest square inch for total cost.

As you can fit multiple images into a 20 square inch area this can be a cost effective way of obtaining a stamp set.

## **MANUFACTURING & SUPPLY SERVICES**

### **Cutting of components by press knife**

If you have a number of identical parts to cut we can have a knife made to your design and use a press to cut as many as you need. We may already have a knife in our collection to suit your needs.

### **Belts and straps**

We can make straps and belts in a variety of leathers and configurations. We supply key straps to a number of NHS trusts around the country.

### **Fittings for TV / Film / Theatre uses**

Our extensive archive of fittings and buckles can provide inspiration for sorts of unusual specifications and prop requirements.

## **POSTAGE CHARGES (UK Mainland):**

Order value:	<b>Parcels</b>	Indicative cost:	
		Ex VAT	Inc VAT
	up to £50 (small parcel) = £5.50	£5.50	£6.60
	up to £50 (larger parcel) = £7.50	£7.50	£9.00
	£50 to £100 (larger parcel) = £8.50	£8.50	£10.20
	£100 to £200 (larger parcel) = £9.50	£9.50	£11.40
	Over £200 = quote on cost		

### **Rolls of leather**

**Please note:** a courier surcharge applies to rolls of leather dependant on the overall length and volume of the package.

You will be billed at the estimated parcel length & volume. If we can pack the leather smaller than the surcharge length you will be refunded the excess postage cost.

### **Highlands and Islands, Northern Ireland and the Channel Islands:**

Carriage to these destinations is calculated based on courier costs.

**Please note:** as required by HMRC postage charges are subject to VAT at 20%
